SBL# 219.-1-5.2

John Gay spoke on behalf of the project. There were new plans that were shown and comments provided.

There was a commercial space that was added with approximately 40 spaces and one entrance way. There are about 125 lots and “pocket parks” created. The detention basin was moved to approximately 350 feet between each house as well.

The Board held a discussion on the proposed changes. The members would like to see more of neighborhood use and a way to connect the parks and bike paths. They would also like to see a more defined layout of how the commercial space would be used as well as the size and would like to see what phases they plan to do the project in if it is approved.

The consensus of the Board is to put the applicant on for the next Planning Board Meeting.
